Blagoj Sutinov

Software Developer | Java • Spring Boot • Angular • Azure

Veles, North Macedonia | +389 75 294 137 | bsutinov@gmail.com | https://www.linkedin.com/in/blagoj-sutinov/

Professional Profile

Software Developer with 4+ years of experience engineering enterprise-scale web applications utilizing Java, Spring Boot, Angular, and Azure. Proven track record in microservices architecture, REST/SOAP system integrations, and cloud migration initiatives in Agile/Scrum environments. Strong analytical background in translating complex business logic into high-performance, maintainable software solutions.

Core Technologies

- **Backend:** Java, Spring Boot, Spring MVC, Hibernate, JPA, RESTful APIs, SOAP
- **Frontend:** Angular 11+, TypeScript, JavaScript, HTML5, CSS3
- **Cloud & DevOps:** Microsoft Azure, Git, Maven, Gradle, SVN, Apache Tomcat, Selenium
- **Methodologies & Concepts:** Microservices, OOP, Agile/Scrum, CI/CD, TDD, Clean Code

---

Professional Experience

Open GI — Software Developer

04/2022 – 06/2026 | Skopje, North Macedonia

- Developed and maintained enterprise-scale insurance applications powering major UK insurance brands (GoSkippy, Premium Choice, Hughes Insurance, Aura Insurance).
- Designed and deployed robust backend microservices using Java and Spring Boot, integrating secure third-party payment gateways for real-time policy transactions.
- Authored complex validation rules (driving licence histories, age, date of birth, underwriting criteria) to ensure high-accuracy policy quoting.
- Built responsive, multi-tier customer quote comparison journeys using Angular, streamlining policy selection workflows.
- Redesigned core business logic and refactored legacy components to enhance system performance, code maintainability, and test coverage.
- Resolved **100+** critical client support tickets across frontend, backend, database layers, and external APIs with minimal turnaround time.
- Identified and fixed **300+** application defects, directly improving platform reliability, uptime, and user experience.
- Engineered internal diagnostic tools, including a dedicated Session Viewer application that enabled cross-functional teams to trace quote journeys and transaction states.
- Implemented bidirectional REST and legacy SOAP integrations across distributed microservices.
- Contributed to business-critical Azure cloud migration initiatives, ensuring smooth service transitions with zero business disruption.
- Collaborated with business analysts, QA engineers, and product owners across 2-week Agile sprints.

Tech Up — Frontend Developer (Intern)

2021 – 2022 | Veles, North Macedonia

- Built a responsive dental practice management web application using modern JavaScript/TypeScript and component-based frontend architecture.
- Developed patient record management modules (CRUD operations, dynamic search, and appointment booking workflows) supporting **500+** patient profiles.
- Engineered automated invoice generation and billing interfaces, cutting manual administrative processing time for clinic staff.
- Integrated frontend components with backend RESTful APIs, implementing robust form validation and error handling.
- Optimized bundle size and asset loading, achieving a **~25% improvement in initial page load performance**.
- Actively participated in code reviews, bug fixes, and feature testing.

SkillUp Academy — Learner Mentor

2021 – 2026 | Veles, North Macedonia

- Designed and delivered project-based curricula covering HTML, CSS, and modern JavaScript fundamentals.
- Guided students through interactive coding projects, instilling clean coding habits and debugging practices.

Primary School “Panko Brashnarov” — ESL Teacher

2009 – 2022 | Veles, North Macedonia

- Developed strong cross-functional communication, mentoring, and organizational skills over a 13-year career, utilizing digital tools and modern methodologies.

Personal Projects

- **Job Hunt Tracker (Full-Stack):** Centralized career management platform for tracking application pipelines, interviews, and notes. Built with an Angular SPA frontend, a secure Java Spring Boot REST API, and a PostgreSQL database.
- **Glowing Candles (Full-Stack):** Inventory and production management application tailored for artisanal candle makers. Engineered using Angular, Java Spring Boot, and relational MySQL data modeling.

Education & Certifications

- **Master’s Degree in Diplomacy & National Security** — University of Veliko Tarnovo “St. St. Cyril and Methodius”
- **Bachelor’s Degree in English Philology** — University of Veliko Tarnovo “St. St. Cyril and Methodius”
- **JavaScript Foundations Professional Certificate** — Mozilla (2025)
- **Developing Your Emotional Intelligence** — LinkedIn Learning (2024)

Languages & Additional Interests

- **Languages:** Macedonian (Native), English (Fluent / Bilingual), Bulgarian (Fluent), Serbian (Fluent)
- **Interests & Lab:** IoT, Raspberry Pi Home Server setups, Linux home labs, Karate
